Re : Letter of Recommendation
Subject : **Leland Stowell**

I have been associated with Leland Stowell, professionally, for approximately two years in the employment positions of Dispatcher and Administrative Clerk.

During that time (as his immediate supervisor) I witnessed L. Stowell in both stressful and non-stressful situations. Throughout these situations L. Stowell displayed extraordinary people skills in the context of managing diplomacy, tactful suggestions/intervention, problem solving, and working with diversity.

If a problem arose that created negativity or impacted the something in a less than favorably manner, L. Stowell would take steps to immediately correct the problem without embarrassing or "calling attention to" the personnel involved. L. Stowell took the time to explain his reasoning and the decisions that he made. The handling of such incidents demonstrate that L. Stowell is a real "people person" who knows the value of diplomacy, is able to recognize a problem, then effectively and efficiently deal with it in the most appropriate manner for all concerned.

Additionally, L. Stowell is able to maintain an excellent overall discipline towards the tenets and goals of the Nye County Sheriff's Office in areas that he is responsible for, which is a direct correlation to the success of it. L. Stowell has no difficulty in keeping on schedule with assigned tasks.

L. Stowell makes it clear, that there was no doubt that the needs of the organization must prevail in topics such as; safety, accountability, confidentiality and representation, to name a few.

In closing, I would not hesitate to recommend Leland Stowell for a position with your agency in any capacity. I believe him to be an "Team Player" with people skills and the ability to get things accomplished in a cost saving, timely and ethical manner.

If you have any questions that I may answer, please do not hesitate to call me at 1-775-751-7000.
